Banners

Sizes

728x90, 448x70, 300x250, 240x400, 160x600, 120x60

Types Of Creative

Third-Party

A highly customizable, interactive creative. You can use HTML and JavaScript snippets as well as tags from a third-party ad server.

Image

A basic image creative. Requires GIF, JPG, or PNG file.

URL

Provide a click-through URL of the page you would like the banner to direct to. (Not needed for third-party tags)

Maximum File Size

Hosted creatives can be up to 80k. For rich media creatives, follow industry rich media creative guidelines. Please note that larger creative files will increase the page load time for your site.

Geo-Targeting

Geo-targeting is available to either include or exclude certain countries, states, or cities.

Tracking

External tracking is available through the use of third-party tags and click-through URL's with a unique tracking code. Internal tracking is available for images with clickTAG's

*** Only one file type needed for each size**
